

SHOW YOUR SUPPORT FOR OUR EMPLOYEES

These six dedicated Newmont employees continue to struggle with understanding why they are being subjected to unfounded allegations in Indonesia. For more than seven months, our employees and their families have undergone enormous stress and suffering. A travel ban has been imposed on them for one-year, barring them from travel outside Indonesian borders, and a recent Supreme Court decision appears to have empowered the police to continue their biased investigation. They need your continuing support and encouragement.

From a company standpoint, we are leaving no stone unturned in our efforts to free Rick, Putra, Bill, David, Phil, and Jerry. We are confident that we will prevail and that their freedom will ultimately be secured.

Until then, wear this gold pin as a constant reminder of their need for your support and prayers. Thank you.
